

Ichikawa Single Hooks Strong Single #1 10pcs.

Ichikawa

Product number: IS-770-00026

Corrosion-resistant single hooks for plugs and spoons.

This Ichikawa Strong Single Hook for casting is designed for hardbaits, whether for small ponds and lakes or the big ocean.

It has an ideal bending curve that allows easy hooking of fish. With rust proof TIN coating. The special feature of this hook series is that it is made of very strong material in every size. The smallest hooks can be used on smaller lures without compromising strength. Single hook for plugging and spooning. Heavy wire for heavy fish. Hook up well with curve point even barely touched.
