

Illex Magic Tungsten Ned Jig Head with Bait holder 7g #2/0

The head lets you position the bait at 900 to hold it clear of the bottom. Perfect for lures like the Magic Craw, Yammyfish 3,5 & 8, Flick Shake 4 & 8 etc. The weight is made from eco-friendly tungsten alloy and designed to help you read the bottom. We have selected a strong and ultra-sharp hook and fitted a metal guard trailer and blood red ligature to help hold your lure in place. The red ligature gives off UV reflections for an added trigger point. Once rigged up and fishing you bait is ready to be scooped up by a hungry perch or zander or bass!
