The VMC Mustache Shallow Screw-In Weight - Lead-free and innovative, 22g

Discover the Shallow Mustache: a ground-breaking solution for fishing in shallow waters from 1 to 2 metres deep. This **VMC Jig head** with a wooden cavity creates a tantalising water movement that attracts even the biggest pike.

Features:

- **Wooden body construction:** The Shallow Mustache is equipped with a wooden body which, in combination with the zinc keel, ensures perfect swimming stability.
- **Lead-free:** This **Jig head** is not only effective, but also environmentally friendly as it is lead-free.
- **Sustainable packaging:** The packaging is made from 100% environmentally friendly materials and contains no plastic.

How to rig:

1. Lightly moisten the bucktail to ensure optimal attachment.
2. Create space around the screw to attach the bait easily.
3. Screw the rubber bait firmly onto the screw to ensure secure mounting.

Variety of colours:

The Shallow Mustache is available in a wide range of 7 appealing colours, so you can always find the right option for your fishing needs.

Experience a new level of effectiveness and finesse when fishing shallow waters with the VMC Mustache Shallow Screw-In weight. Discover the secret behind this innovative **Jig head** today.
