Designed for the Cheburashka technique, this hook has an extra large eye to optimise the action of your favourite softbait. The PTFE coating, micro barb and SuperLong NeedleSharp point ensure absolute penetrating power. The Resin Keeper keeps softbaits in the perfect position even after a few bites and prolongs their life. In combination with our Moscow Weights it forms the almost hanger-free Cheburashka rig! Cheburashka hooks especially for perch, zander & pike.
