

Owner Cultiva SBL-35 Spare Hooks for spoons

Owner

Product number: OWN-SBL35

A bit wider designed spare hooks that make hooking easier.

0,00 €* 0,00 €

The slightly wider hook, unlike the SBL-31, makes hooking easier, but also increases the risk of the fish jumping off the hook.

The SBL-35 is ideal for fishing with a light spoon up to 3g, whose running behavior is not affected by the fineness of the hook. Just like the SBL-31, the SBL-35 is also barb-free, making hooking easier and reducing the risk of bigger injuries in the mouth of the fish.
