

Strike King MD Jointed Structure Head Jighead 14,2g

Strike King

Product number: SK-MDJS-142

Versatile Structure Head to keep big fish at bay.

6,99 €* 6,99 €

The Strike King® Jointed Structure Head combines the popular "swinging- head" style with the unprecedented characteristics of Strike King's Structure Jig. Developed with the assistance of Bassmaster Classic® Champion Mark Davis, the Structure Head is versatile in its application and perfect in its design. The head design allows anglers to keep maximum contact with the bottom, yet it's super weedless! Davis says, "The hook is also just right for rigging and equally good at keeping big fish buttoned up."
