VMC X-Strong Round Treble 8650 Cone Cut black

The X-Strong round Treble with a regular ring by VMC is perfect for large perch, trout and black-bass. The point that combines sharpness, structural stability and quality thanks to a conical tip, a triangular crest and a barb so fine that it assures, without force, a clean and perfect penetration beyond the barb. As well carbon stabilizes iron during temperature changes. The higher the level of carbon, the stronger steel. VMC® uses premium-quality high carbon steel to allow for a thinner hook with the highest quality point and durability. The round bend has a slightly wider gap than the O'Shaughnessy and results in better and easier setting of the hook, but may open more easily. A high percentage of freshwater applications will use round bend trebles to benefit from the wider gap.

The size 2 is an optimal replacement for Rapala Deep Tail Dancer lures.
