

Railblaza Adjustable Platform 100x64mm and StarPort Kit

Railblaza

Product number: RB-91504XK

Platform by Railblaza with StarPort Kit for mounting.

0,00 €* 0,00 €

Railblaza Platform adjustable 100x64mm StarPort Kit

RAILBLAZA Platforms will fit into RAILBLAZA StarPort, or many sailboat winch handle receivers.

The Platform can be used as a flat surface to make many items StarPort compatible, meaning these items can all be plugged in and locked in place on your inflatable, kayak, sailboat or any other place that will take a StarPort.

Once you have finished using the platform it can be removed and the StarPort can be retasked for another application.

RAILBLAZA Part Numbers:

02-4002-11 Adjustable Platform (black)

02-4002-21 Adjustable Platform (white)

What You Get:

- 1 x Adjustable Platform

- 2 x 12-gauge 32 mm self-tapping screws
- 2 x M6 x 35mm machine screws, washers & nuts

Construction Materials

- Platforms: 15% glass-filled nylon

Installation

The StarPort™ Platform enables work platforms (baitboards, tables) and barbecues to be installed in horizontal orientation, or on a vertical surface, even a TV could be mounted. You could also store your baitboard on a vertical surface by fitting another set of StarPorts, eg. transfer your baitboard from your fishing position to your storage locker.

You can use your StarPort™ Platform as a template to mark your holes on the surface to be mounted. Eight positions are able to be used, however, we recommend using at least four.

MOUNTING ADVICE

The StarPort™ Platform should be oriented to best suit access to the tilt and balance of the surface it is supporting. On large surfaces, multiple Platform StarMounts should be used.

When using multiple StarPort™ Platforms they must be all on the same aligned plane.
