NRS Chinook OS Fishing PFD - The ultimate fishing Buoyancy Aid in red.

When it comes to open water fishing, safety and comfort is essential. The NRS Chinook OS Fishing PFD Buoyancy Aid is just the thing to meet all your needs. Drawing inspiration from our best-selling buoyancy aid line, it stands out with additional features designed specifically for open water fishing.

Fit and comfort

The flotation device offers a customisable fit with a front zip and six adjustment options. It features PlushFit™ foam and a high back that provides an extremely comfortable buoyancy aid for all types of raft or kayak seating. For added comfort on warm days, there is a mesh panel in the lower back for extra ventilation.

Practical features

This model has a large zipped pocket with internal divider and a smaller pocket to keep your fishing gear organised and to hand. It also has a zipped pocket for a VHF radio and three additional accessory pockets with velcro fastenings. To securely attach your fishing rod, there is a rod holder and for safety there are two strobe attachment points. Two tabs for attaching knives and reflective accents to improve visibility in low light conditions complete the design.

Safety certification

The NRS Chinook OS is a medium profile Buoyancy Aid that is certified to EN ISO 12402-5 and also meets CE EN 393 certification. These certifications ensure the highest safety standards, providing you with a sense of security on the water.

This buoyancy aid isn't a life saver. To survive, you need to be able to swim. This buoyancy aid is just a swimming support. Level 50 PFD - ISO 12402-5 Swimmers only, sheltered waters, help at hand, limited protection against drowning, not a life jacket.
