Minn Kota Trolling Motor Plug & Receptacle MKR-18

Universal design for 2- or 3-wire configurations on 12, 24 or 36-volt systems. Watertight sealing cap and corrosion-resistant electrical components. Requires standard 1-1/8" diameter mounting hole.

For cables up to a cross-section of 10 mm² no adapter is required. For cables with a cross-section of up to 16 mm², an MKR 18A adapter is required (sold separately).
