The 8-ball hand steering is a further development from Feelfree and replaces the previous hand control in gray and orange. The first version of the hand control was a bit difficult to use, so Feelfree developed 8-ball hand steering, which is much easier to use. The 8-ball hand control comes with all parts including instructions that you need for installation.

- Allows control with one hand instead of feet
- Perfectly prepared for the replacement of the previous model
- For use with overdrive pedal drive
