## FeelFree Lure 10

Feelfree Kayaks is taking kayak fishing to a new level in stability, comfort and versatility with the new 2014 Lure. The Lure 10 is the smaller more compact brother of the Lure 11.5 and is excellent for shorter trips on rivers and lakes without comprising features. The kayak comes standard with a variety of unique features including a removable multi-level extra wide Gravity Seat, Feelfree's wheel in the keel and Uni-Track system. The patent pending Feelfree Gravity Seat offers the widest range of seat heights, which is adjusted with the simple function of a lever and is removable – the Feelfree Gravity Seat is the new high. The Lure's super-stable 36" wide hull paired with a padded standing platform gives you the option to paddle or cast in either the sitting or standing position whether fishing inland waters or wide open oceans — this kayak fears no water.

- Length 10' (305 cm.)
