Moken 10 Light

Ideal for short coastal paddles just past the surf or taking on bass in your local lake, the Feelfree Moken 10 Lite won't require any heavy lifting. This kayak is a smaller, nimbler version of our standard Moken 10 kayak with some added features like our new Uni-Track accessory system for kayak fishing. Between its weight and our proven Wheel in the Keel, getting around with the Moken 10 Lite is a breeze! Stable, light and compact when it comes to fishing kayaks, you won't be disappointed with the Moken Lite.
