feelfree

FeelFree

Product number: FFK-L10V2-FC

Remake of the Lure 10 with improved equipment.

Weight: 35 kg

1.499,00 €* 1.499,00 €

The new Lure 10 V2 is the smaller more compact brother of the Lure 11.5 and 13.5 - excellent for shorter trips on rivers and lakes without compromising features because it comes with it all!

The kayak features a variety of unique patented comfort features seen on the Lure series including the removable multi-height adjustable Gravity Seat, Wheel in the Keel and molded in handles. The Lure 10 now features an Electronics and Sonar Pod and is Beaver Tail Rudder ready. Like most Feelfree kayaks, the Lure 10 comes with everything you need to get out and go fish including Uni-Track rails for unlimited outfitting configurations, flush mounted rod holders and a large tankwell to store your fishing gear or a cooler. The Lure's super-stable 34" wide hull paired with a padded standing platform gives you the option to paddle or cast in either the sitting or standing position regardless of where you take it — this kayak fears no water.
