*feelfree*

FeelFree

Product number: FFK-L13V2-OR-OC

Remake of the Lure 13.5 with improved equipment  
and parts for the Overdrive System.

Weight: 48.5 kg

2.299,00 €\* 2.299,00 €

The **Overdrive Ready** version of the new Lure 13.5 V2 offers you the ultimate platform for the perfect paddling and fishing experience. All components required to equip the **separately available [Overdrive System](#)** are already assembled, so that the Overdrive System only has to be mounted to experience the next fishing adventure.

In addition to the 8-ball hand steering and the rudder, the additionally assembled components also include the seat adjuster, the mounting block and 8 scupper plugs. The sonar pod and footrests are **not** included, since these components cannot be installed simultaneously with the Overdrive System.

Standard features include the removable sonar & electronics pod for your fish finder and transducer, Uni-Track accessory mounting system and as with all Lures, the 13.5 is rudder ready. The Lure 13.5 also features a front multi-use console, which sits directly behind the bow hatch for additional accessory mounting and quick access storage space. At over 13', this kayak is also built for longer distances and days on the water. With a capacity of 500lbs, you can bring all the gear you need for the ultimate fishing adventure.

Looking to upgrade? The Lure 13.5 is Overdrive and Motordrive capable, so when you're ready for the best in hands free propulsion, installation is a snap!

The kayak also comes with a variety of unique patented comfort features standard to the Lure series. Including the removable multi-height adjustable Gravity Seat, the famous Wheel in the Keel and sturdy molded handles. Combine that with the Uni-Track system, flush mounted rod holders, a large tankwell for fishing gear or coolers and a redesigned front console, you'll have everything you need to get out and go fish anytime and anywhere! The Lure's super-stable 34" wide hull is paired with a padded standing platform that gives you the option to paddle or cast in either the sitting or standing position. Whether fishing inland waters or wide open oceans - this kayak fears no water!

**\*Overdrive, Motordrive and Rudder systems sold separately.**
