

Feelfree Kayak Corona Angler Fishing kayak

feelfree

Feelfree

Product number: FFK-COANG

The angler version of the Corona for up to 3 persons.

1.299,00 €* 1.299,00 €

The Feelfree Corona Angler is the new tandem in the fishing kayak series by Feelfree. The fishing version of the ultimate family kayak has been optimized to give 1 or 2 people more than enough space to carry loads of gear despite the weight of 2 adults. This is ensured by the appropriate space and the carrying capacity of up to 278kg.

If you would rather paddle alone, you can use the additional recess in the middle for a seat. Accordingly, you could attach 3 seats in the Corona, if you want to bring kayaking and/or fishing closer to your young ones, for example. When using with 3 people, however, it is important to pay attention to the total weight load.

Unlike the recreational version of the Corona, the Corona Angler offers better seats (King Fisher Seats) for added comfort, 2 flush mount rod holders in the back, 2 rubber hatches for storage and bottle holders. Of course, as with all Feelfree fishing kayaks, the wheel-in-the-keel, recessed carry handles and paddle mounts have been omitted, so you do not have to compromise on standards when you go for a ride.
