

Wilderness Systems Fishing kayak Radar 115 Solar

Wilderness Systems

Product number: WS-RDAR115-SL

Small, but oh my! Fully equipped, compact fishing kayak.

1.649,00 €/Stück

Weight: 38.5 kg

1.649,00 €* 1.649,00 €

Like its big brother, even the Radar 115 is one of the first fishing kayaks from Wilderness Systems that supports all 3 engine capabilities: Paddle, pedal and power!

It features the S.M.A.R.T. Hull Technology for more stability, maneuverability, acceleration, responsiveness and tracking for the best performance in any environment.

Besides the huge, flat standing platform for a lot of space, this fishing machine scores with state-of-the-art outfitting including SlideTrax™ rails, storage opportunities, scupper options for the mentioned engines and even multiple electronics options. And of course the AirPro MAX Seat complements the package with optimized positioning for any mode of travel.
