

Railblaza Fillet Table II Bait Board

Railblaza

Product number: RB-915085

Fillet table that allows you to fillet fish and cut bait with ease

75,50 €

62,99 € * 62,99 €

This bait and fillet table from Railblaza provides a sturdy station for cutting bait and cleaning or filleting fish, which can be easily attached to your boat or dinghy. The Fillet Table II is a table top station that can serve all your fish filleting and bait cutting needs. The rigid, injection moulded quality provides a sturdy and long lasting board that will function well for both you and your catch. The convenient size of 525x350mm (20.8x13.8") means the Fillet Table II can be moved around and attached to multiple surfaces, including boat railings (using the RailMount 19-25) and dinghies.

The Fillet Table II has a range of design qualities which include, no front lip to get in the way while you prep the bait for your next fishing excursion, an all-round drain which reduces mess by stopping spill from the front, and a safe spot to store your filleting knife at the back of the table. An overboard drain can also be easily attached to the Fillet Table II by simply knocking out the plug and adding in a 3/4" hose (not supplied). Wanting to teach the kids how to fillet their catch, or have more than one person doing the filleting on board? The height of the Fillet Table II is to allow easy filleting of fish.
