Railblaza Ribport Starport Mounting System for Inflatables

Fitting Rod holders and other accessories to RIB's & Inflatable boats just got easier.

You no longer need a specialised outfitter, or to work with messy glues to install accessories to your RIB or Inflatable, with the RIBPort VHB pad you can install in the comfort of your own garage following the below instructions. Our team have run extensive trials on Hypalon, PVC & polyethylene inflatable craft.

The RIBPort can also be attached using the same glues as used to attach handles etc to RIB's and inflatables.

IMPORTANT: Use of petroleum based lubricants on the StarPort slide will cause failure. Silicone based products are best suited (please check contents of lubricant before using).

For more information, and mounting tips, view the installation guide and video below.

RAILBLAZA Part Numbers:

03-4064-11 RIBPort inc StarPort (black)

03-4064-51 RIBPort inc StarPort (grey)
