Great for Powerboats, Sailboats and Automotive use.

Landscape to portrait with the flick of an R-Lock!

These days chartplotter, sounder and even radar output can be read on popular consumer electronics. The ScreenGrabba holds your iPad, Galaxy Tab or other touchscreen firmly, even when it's in a waterproof bag or case. It allows 360° horizontal rotation, landscape to portrait adjustment, and over 90° of tilt.

- Quality New Zealand made from high quality, waterproof and UV proof materials
- Fits 7" – 10" Tablets (10" max height)
- iPad Pro 10.5" in landscape mode
- 360° rotatable, and lockable at any point
- Over 90° tiltable
- Can be adjusted from Landscape to Portrait using R-Lock lockable friction joint
- Thermo bonded elastomeric tablet grips
- R-Lock allows friction joints to be locked at different positions. Pat pending.
- Will hold most dry cases, both hard & soft designs

Once you have decided to buy a ScreenGrabba you simply need to decide how to mount it, do you need it on your rail, inflatable tube, in the cockpit or on the flybridge? There's a RAILBLAZA mount to suit your choice.
