With just two 500mm rails and straps, you can easily convert your classic C-Tug cart to make fitting your canoe or kayak easier than ever. RAILBLAZA C-Tug R Conversion Kit allows you to convert your classic C-Tug cart with a pair of 500mm rails and straps. Building on the bestselling features of the C-Tug range, the C-Tug R Conversion kit is a pair of 500mm hull rails that allow you to adjust your cart to the perfect position, to reduce your pulling load making it easier to get your canoe or kayak and gear to the destination.

The C-Tug R assembles and dismantles in seconds and stows easily in your canoe or kayak hatch. The kickstand holds the cart in position while you load or unload your watercraft onto it. The design and functionality of the C-Tug R removes the need for an extra pair of hands or multiple trips carrying your gear, simply load it all in one go and pull it.

Note: Tie-Down Straps not included.
