

# Railblaza Trolling Motor Support XL E-motor stabiliser

Railblaza

Product number: RB-TMSXL

Securely hold the shaft of electric trolling motors while driving on the water or on the trailer.

45,20 €

42,90 €\* 42,90 €

Avoid damage to your electric trolling motor by adding this useful RAILBLAZA accessory to your boat.

- Can be offset inboard or outboard to suit the alignment of your Trolling motor shaft
- Height adjustable to suit different shaft heights
- Flexible strap holds shaft captive to avoid vibration on road or on water
- Can be removed to create a clear deck when Trolling motor is in use
- Will fit any StarPort mount to suit your application (ordered separately)
- 5 Year Warranty

The G-Hold 50 with flexible quick-release strap will secure the shaft of your Minnkota, Motorguide, Watersnake, Lowrance Ghost, Garmin Force and many other trolling motor brands.

RAILBLAZA Part Number: 02-4158-11
