Daiwa Tournament Lure Current Master SR 93 9,3cm

Floating Lure

The Current Master SR is made for the upper water levels and is ideally suited for asp. Thanks to the construction of its body and diving lip it can be fished very fast and it will not break out sideways and loose it's action – ideal for rivers and streams. This lure shows its full potential when it is fished variously. With the Current Master you can anger the target fish with letting the lure dance wildly on the spot to entrap them.

Diving depth ca. 0.5-1.5m
