Daiwa Tournament Wobbler Double Clutch 9,5cm

Suspending Lure

The big brother oft the 75mm version. The Double Clutch's belong to the most successful plugs at the Japanese market. Due to its slim body shape, small prey fish, like bleaks, are perfectly imitated. Thanks to its "suspender"-qualities, this plug can be fished nearly in stagnation. Short, powerful punches and speedups animate the Double Clutch 95 to show a very catchy movement pattern, which no predator can resist.

Due to the patented "Silent Gravity Oscillating System" one can reach great casting distances – additionally this "silent" plug is perfectly fitting for highly frequented waters, in which plugs with the usual rattles are already well known among the predators.

Diving depth ca. 1.5m, trolled up to 2.5m
