The SPIKE has been developed by one of the most famous bass anglers in Japan, Toshi Namiki, in cooperation with DAIWA. The SPIKE's concept consists of developing a plug for medium diving depths, which is getting down very fast after the cast - consequently the lure is running in the preferred depth for a longer time. It is also suiting perfectly for fishing in areas close to the shore. The special way of construction and the compact shape enables great casting distances – ideal for baitcast reels! The SPIKE is also perfectly fitting for fishing for bass, asp and zander. Diving depth: about 2.0m – Trolling: up to 2.5m.
