The Spearhead Ryuki Quattro pushes the boundaries of fluid movement in the water. It does this through an innovative design made up of four pieces and three joints. The three joints of the four-part body will enact a mesmerizing movement that will attract the attention of a wide range of species.

As the original Ryuki found many uses as a lure for many kinds of species, the new Spearhead Ryuki Quattro will also find a wide application beyond trout fishing. As the use of jointed lures increases in trout fishing, Spearhead Ryuki is here with a product to lead the way with the new Quattro!
