Grandma Classic Lure

9,90 €* 9,90 €

Grandma Wobbler Perch

The Classic Grandma Lure is designed for casting or trolling and is excellent for twitching. Designed by “Jake” Satonica in 1960, the Grandma Lure has excelled as one of the most productive fish catching lures on the market. “Grandma” has been copied by many companies, but the action has never been duplicated correctly. The unique action of this lure has been proven over and over again by the amount of fish that are being caught with it. Whether it is fresh or salt water, “Grandma” will help you capture many fish, and maybe the trophy you’re looking for. It will withstand punishment from anything from a freshwater Muskie to a saltwater Barracuda. With a body made of high impact plastic, and a lip made of extra high impact plastic, the Grandma is a very durable lure. It will withstand punishment from the toothy Muskie and Northern Pike. Being sold all over the world, the Grandma Lure is catching many different species of fish, Tarpon and Snook; basically, all game fish. “Grandma” has made many fisherman’s trip a memorable one. We hope “Grandma” will do the same for you.
