Hybrida

Product number: HYB-W1MW

Nifty, tiny walkbait for fishing under the surface.

13,90 €* 13,90 €

Hybrida W-1 Mini Walkbait: The premium surface lure for demanding anglers.

The Hybrida W-1 Mini Walkbait Lure is the perfect companion for any discerning angler. This sophisticated, small wobbler has been specially designed to act directly on the water's surface. It is ideal for use in shallow or densely vegetated waters and thus enables versatile use.

Design and technology

The Hybrida W-1 features a continuous wire construction, a quality feature typical of Hybrida's premium products. This robust construction makes this surface lure ideal for use in our regional waters, be it rivers, lakes or ponds.

Advantages of using Hybrida W-1

The Hybrida W-1 Mini Walkbait Wobbler has a unique feature: it does not have an integrated rattle. In waters that are overfished due to the overuse of rattle baits, the W-1 can serve as your wild card. Its unique design and ability to cleverly fool fish will increase your chances of catching them.

Features of the Hybrida W-1 Mini Walkbait Wobbler:

- Type: Topwater Wobbler / Walkbait
- Size: 5cm
- Weight: 3g
- Features: No integrated rattle, continuous wire construction

- Effective for: Perch, Asp, Zander, Trout.

The Hybrida W-1 Mini Walkbait Wobbler is the right choice if you are looking for a versatile and reliable lure that will increase your catch rate. Don't miss this opportunity and experience the exceptional performance of this wobbler for yourself!
