and the cost

Product number: HYB-JMGT-WFO

Small jerkbait with aggressive bait play.

Weight: 0.026 kg 17,50 €* 17,50 €

Experience superior fishing performance with the Hybrida Mini GT Jerkbait.

Discover the ideal partner for your fishing trips: the Hybrida Mini GT Jerkbait is precisely crafted to exceed all your angling expectations. Its design is perfectly matched to the natural forage fish spectrum of predators in local waters, increasing its appeal to pike, perch, zander and asp.

Superior casting characteristics and versatility

The Hybrida Mini GT Jerkbait offers remarkable casting characteristics. With a weight of 26g and a length of 8.5cm, it is a long-casting bullet that is excellent to fish with both a spinning and baitcasting rod. Thanks to its shallow running depth of 0.1 - 0.5 m and slow sinking speed, it is excellent for shallow waters, ditches, ponds and polders.

Excellent build quality

As part of the Hybrida range, the Mini GT Jerkbait stands for high quality and robustness. Each lure is crafted with the utmost care and precision to ensure it performs at its best in a variety of conditions.

Six attractive decors

The Mini GT Jerkbait is available in six attractive decors so you can make the perfect choice for any fishing environment. Its appearance is not only tempting to predators but also aesthetically pleasing to anglers.
