

Hybrida Lure Twitchbait U1 9cm 15g HS Holo Silver

Hybrida

Product number: HYB-U1T-HS

Absolute killer on medium-sized predators!

Weight: 0.015 kg
15,90 €* 15,90 €

Top bait for targeted perch and zander fishing. The U-1 Twitch shines with excellent casting properties and is very easy to fish on light equipment. This bait produces maximum edge effects with minimal retrieval speed. Due to the not so aggressive running, it also addresses passive predators.

Our tip: Stop & Go or just twitch, twitch, stop.

And another insider tip: At night on zander just cast it in the currents! Let the bait drift to the shore on a taut line and then slowly crank it up. The bites come brutally in depths below 50cm.
