Illex Chubby 38 MR Crankbait - Perfect choice for targeted predator fishing

The Illex Chubby 38 MR lure is the perfect addition to the already established Chubby models and is particularly aimed at anglers who are looking for a versatile hardbait. With its diving depth of up to 1 metre, it fills the gap between the classic Chubby (0.6m) and the D-Chubby (1.5m) perfectly, so that you can also fish successfully at medium depths.

This Crankbait is not only a visual highlight thanks to its eye-catching colours, but also impresses with its functionality. A simple cranking action in combination with the Stop & Go technique is enough to provoke aggressive attacks from perch and zander. The Illex Chubby, an often copied but never equalled original, stands for quality and reliability on the water.

Product features:

- Length: 3,8 cm
- Weight: 4,2 g
- Swimming behaviour: Floating
- Swimming depth: 0 - 1 m
- Target fish: Perch, zander
- Ultra sharp treble hooks for maximum bite yield
- Eye-catching colours for high visibility in the water

Experience the difference with the Illex Chubby 38 MR - your new favourite lure for targeted predator fishing. Put your trust in the original and increase your catch rate with this outstanding hardbait.
