

Illex Freddy 170 CW Noisy Swimbait sinking 16,8cm 44,5g

Illex

Product number: IL-FRDYN-170

Perfect for targeting pike, big perch and black bass.

26,99 €* 26,99 €

A "noisy" version of our great 2 piece FREDDY 170 Catwalk glide bait. The perfect lure for targeting large European pike, perch and black bass. Designed for larger waters or conditions such as low light levels or coloured water. This small lure is ideally suited to any medium-heavy spinning or bait casting rod. Sinuous S shaped swimming action on straight retrieves can be amplified by twitching to the left or right or made more seductive by the occasional stop and go movement. Two integrated rolling 50lb swivels rotate a full 360 degrees helping reduce snagging up and keep your hooks in place during acrobatic fights. This dense lure casts a long way accurately and is ideal for prospecting big waters and fishing round weed beds, structures and tree lined banks. To make the lure even more versatile try adding a John Weight on the stomach swivel to explore deeper water layers. This swimbait is as technically advanced as it is easy to fish with! Available in 5 realistic colours.
