

Illex Rerange 130 SP MR Lure 22,7g suspending

Illex

Product number: IL-RRNG-130MR

New MR running depth for a sensational lure.

26,49 €* 26,49 €

The Rerange 130 MR (Medium Runner) is a further development of the Rerange 110 and 130 SP. This hardbait is the fruit of a long collaboration between Team Illex and Koichi Fujimatsu (Lure Designer) of Jackall.

The Rerange 130 MR SP dives quickly to over 2.5m, while it spreads such attractive vibrations that predators rise even from 7 or 8m depth. Its flanks also provide an optical charm in any jerk, even the most cautious predatory fish can hardly resist. The Tungsten cylinder inside is in a tube, so that it slides all the way back when casting and the shifted center of gravity and the superior aerodynamics then ensure the longest casts. Big bass, sea bass and of course pike are on top of his list.

- 6 eye-catching colors
- Longest casts also against the wind
- Ultra sharp Japanese Owner triplets
