

# Illex Lure Riser Bait 009P 8.5cm 22g sinking

Illex

Product number: IL-RB-009P

The Riser Bait 009P is a flapper-style popper bait featuring a metal bib that generates its unique erratic action.

26,99 €\* 26,99 €

The open mouth produces discreet pops and a stream of air bubbles escaping from the open gills, the ideal imitation of a fleeing prey fish.

These popper baits work best when the predators are after fast-fleeing prey. The Riser Bait 009P is no exception and works great if you want it on the surface consuming perch, pike or tarpon and trevally. The Bubble Stream confuses the predators and lets them bite, even if the bait may be slightly larger than the young fish that's currently attacking. A great bait even for difficult weather conditions. Its high weight allows long casts even in headwinds. Perfect for searching shallow bays and of course for all the fish that are hunting!
