The body shape and angle of the tail and lip create a tight swimming action. The lip suits slow retrieves and helps you feel the lure working. The feathered tail adds realism and animates the SLEEK MIKEY during pauses. A great lure for pike and other predators holed up in weed beds, snags or obstructions. This is a medium sized versatile swimbait that suits a medium-heavy spinning rod and can be fished in a variety of styles from stop and go to different speeds of straight retrieves over weed beds or parallel to the bank.
