Illex Super DD Squirrel 115 SP Lure 22g

Conquer the waters with the **Illex Super DD Squirrel 115 SP lure!** This new dimension in our SQUIRREL family offers all the features of the Deep Diving Squirrel 79 SP, but in an 11.5cm size, specifically designed to attract larger predators such as pike, zander and perch in freshwater, as well as bass and pollack in the sea.

Thanks to its impressive diving depth of up to 4 metres and its dynamic shaking at the slightest movement, our lure proves to be an irresistible artificial bait. Seeing its flanks flash like lightning attracts the attention of predators and entices them to attack.

The **Illex Super DD Squirrel 115 SP** is perfect for fishing in mid-water, where it floats practically weightlessly in the water column thanks to its suspending feature. Ideal for the proven stop-and-go technique, it offers every following predator the perfect opportunity to strike. In addition, it can be guided like a crankbait as well as varied with kickback jerking and also proves to be extremely effective when trolling.

Target fish:

The Illex Super DD Squirrel 115 SP lure is perfect for fishing for a variety of predatory fish, including pike, zander, perch and black bass.

Product features:

• Length: 11,5 cm

• Weight: 22g

Swimming behaviour: Suspending
Swimming depth: 0,0 - 4,0 m

With the **Illex Super DD Squirrel 115 SP Lure**, you have a reliable partner at your side that will attract the attention of predatory fish and give you unforgettable fishing experiences.

Expand your fishing possibilities and achieve great results with the **Illex Super DD Squirrel 115 SP Wobbler** - the ultimate Illex hardbait for your fishing trips!
