15,90 €* 15,90 €

Mann's Stretch 20+ lure. This is an Original series crankbait, which is 100% "Made in USA". The colours are sold out and hard to find.

The Stretch 20+ is part of Mann's revolutionary "Depth Plus" series that incorporates an innovative lip design with a front kicker plate (Davis System Lip) that allows the lure to dive almost vertically to a depth of over 20 feet using 12 pound test line on an average cast while offering much less than normal crankbait resistance.

Cast Mann's "S20+" using 12 pound test line or less with the lure about 8 to 12 inches from the rod tip. With the rod tip lowered to just above water's surface, start a low to medium retrieve and allow the lip to perform at its maximum and reach maximum depth. As with all lures, vary the retrieve to anticipate more strikes and to best suit your fishing style.
