This extremely versatile bait produces instant vibration on the lift or retrieve. The Rap-V can be worked in variable depths with a wide range of techniques; cast out, make contact with bottom, lift & let fall in a yo-yo style retrieve. For vertical presentation, drop to bottom and twitch for a jigging action. Two line tie positions; front line tie for a slower fall swimming action, rear line tie for a faster fall, head down action. The Rap-V Blade delivers the right action and attitude and is a perfect choice for any species of gamefish.

- Metal frame with durable plastic body
- Two-hole cord connection
- Vibrating - loud rattling
- VMC tail treble and double belly hooks
- Freshwater predators
