The ideal size and its outstanding action provoke many bites.

The X-Rap is "all about the action." It's the perfect size, shape and 3D illusion of a minnow. Prominent scales and lateral line on the fuselage capture and flash light like a beacon. It can be fished both in an aggressive "Slashbait" technique or with a classic Rapala wobble. The angler defines the cadence for maximum effectiveness. Small versions of the X-Rap are ideal for targeting smaller species – or as small, snack-sized offerings for big predators that are finicky and won't bite bigger lures.
