Salmo

Product number: SAL-BB-BBB-55

Lure from Salmo

9,49 €/Stück

Weight: 0.0265 kg

9,49 €\* 9,49 €

Don't let the unusual appearance fool you. This sophisticated wake bait is ideal for the shallows, where the big bass like to hang in cover. With its integrated weight transfer system known as the Salmo Infinity Cast System (SICS), you can cast the Bass Bug incredible distances, ideal for shallow wake fishing applications. The real secret to the Bass Bug however is its perfect balance and built in rattle which work under any retrieve speed you choose. Designed specifically to throw that picture-perfect wake while staying low enough in the water to not miss the lighter strikes, the Bass Bug is a beacon to hungry fish. While it was designed specifically for the Bass market, fisherman of all species have come to appreciate the fish catching ability of this versatile bait. Like all Salmo artisan fishing lures, the Bass Bug is hand crafted and painted by Salmo's team in Europe. They are individually tank tested, and tuned by hand to ensure that your first cast is true, and each retrieve is perfect.

Available in a range of realistic and high contrast colors and Mustad KVD hooks, the Salmo Bass Bug is backed by the same Lifetime Warranty that has made Salmo a trusted leader in crankbaits for over 25 years.
