

# Salmo Chubby Darter Lure Dace D

Salmo

Product number: SAL-CD-D

Lure from Salmo

0,00 €\* 0,00 €

Since its introduction, the Chubby Darter has been considered by many experts to be the most prolific vertical wobbler ever created. A must-have for any serious ice fisherman, the Chubby Darter is equally effective on Walleye, Perch, Bass, Crappie and even Pike. The Chubby Darter has a very slow sink rate, and its unique shape allows it to “walk” several feet as it wobbles down through the water column. Give the rod tip a quick jerk and the wobble is repeated on the way up creating a lifelike representation that creates strikes time and time again with no need for live baits. The Chubby Darter is also at home in open water as well. Fish it like you would any other jig, and the swimming action of the Chubby Darter is sure to produce fantastic results. Often imitated, but never duplicated, the award-winning Salmo Chubby Darter sets the standard for vertical wobblers.

- In the Salmo line-up since 2002
- Lure type: vertical wobbler
- Two sizes 3cm & 4cm
- Sinking (SI)
