This UKKO-wobbler is Finland's famous killer-lure for big fish! Handcrafted in Kerimäki, on the shores of Finland's largest lake, l.Saimaa, each lure has been tank-tested and tuned before shipment, so it is ready to go! The UKKO-wobbler floats and will begin working at lower speeds than other stickbait. It's unique swimming action and the distinct vibrations it sends out, is the secret behind this tournament-winning bait. Find your water, and the UKKO will produce the fish!
