

Believer lure crankbait jointed fire tiger 20cm

Drifter Tackle
Product number: 819J

Top lure

24,99 €* 24,99 €

The first strike from a huge Muskie or Northern Pike will make you a believer in this lure. The Believer is designed to attract big-hitting fish, no matter if you're casting or trolling. This double-eye, dual-level diving lure is hollow on the inside and constructed with hard plastic to take savage strikes season after season.

The Believer is one of the most versatile lures available today. Its unique shape and design, combined with a deep and shallow eyelet, allow this bait to be fished from the surface down to depths of 18' – 20'. Retrieve it slowly as a surface bait over thick vegetation; work it as a jerk bait or twitch bait over and through emerging weed growth. Cast and deep troll it into rocks, timber and heavy cover as a crankbait.

The name speaks for itself, and for over 25 years the Believer has and continues to consistently product RECORD CATCHES for anglers from around the world. It's unique and erratic action which we refer to as "CONSTRUCTIVE CHAOS" triggers strikes from trophy predators who have seen everything!

This color is sold out and will be not produced any more!
