

Hybrida lure twitchbait B1T holo blue HB 13cm 40g

Hybrida

Product number: HYB-B1T-HB

17,50 €* 17,50 €

Hybrida Twitchbait B1T. The "B 1-Twitchbait" is a sneaky lure manufactured by Hybrida. This lure is basically a combination of a shallow runner lure and a jerkbait.

With its 35 g of weight it can be casted at long distances even with a very lightweight rod.

After the lure has been casted you can just reel it in, use the "Stop & Go" tactics or jerk it in small twitches which makes the lure move to the right and to the left in small intervals. Therefore, the maximal flanking effects can be combined with minimal hauling speed.

The "B1-Twitchbait" is a perfect lure for pikes and zanders as well as for asps and chubs.
