

Illex Blade Bait Runner Blade 115

Illex

Product number: IL-RB115

The Runner Blade is a new type of metal vibration lure that has a complex yet subtle swimming attitude that rivals with the best minnow plugs.

15,29 €* 15,29 €

This long blade bait has a casting distance exceeding 60 m, which is a major asset when you want to keep some distance from the fish and for quickly exploring new areas. The slender profile is radically different from classic blade baits and emits strong vibrations without pulling excessively on the rod (Low-Stress Concept). The Runner Blade is outstanding with a simple fast and straight retrieve using the forward eye (swimming depth from 3 m to 5 m), or with a slower stop-and-go retrieve using the rear eye (swimming depth from 5 m to 10 m). Great for all kind of vertical fishing as well. This is a must-have lure for power fishing that can be used in any weather conditions. Great as a change lure with soft baits, the Runner Blade will trigger adrenalin-pumping savage reaction strikes!

The long, slender body and lip design create a nonchalant swimming action at low speeds working between 0.2 and 0.8 metres deep. Speed up the retrieve and the action is livelier but surprisingly stable. Twitching and jerking produce sudden, unpredictable movements like those of a panicking prey fish, sure to attract any nearby predators. The BATTLE MINNOW uses 3 stainless steel bearings for weight transfer ensuring accurate long range casting performance from bank or a boat/kayak/float tube. A team favourite, this minnow is sure to find a space in every tackle box!
