

Daiwa Prorex softbaits Micro Shad DF 4.5cm 8pcs.

Daiwa

Product number: DA-15604-80X

The smaller version of the equally well-known and favoured Duckfin shad.

0,00 €* 0,00 €

The well-known and successful DuckFin shad is also available as micro version with 45mm length for ultra-light fishing for perch, chub, zander and trout.

Despite its low body mass this lure features a strong tilting and wobbling action under water. The Prorex Micro Shad 45DF furthermore is perfectly suited for use with the new Prorex Flexi Jig tungsten jigheads for ultra-light fishing.
