Illex Nitro Shad soft bait Pike UV

The Illex Nitro Shad series is renowned for its superior effectiveness in both fresh and salt water. Now we are taking this legend to a new level with our innovative UV colours. Specially developed for murky waters and the early morning and late evening hours when light is scarce, our UV colours offer a revolutionary solution. The results of intensive testing with our team of experienced anglers and match professionals speak for themselves - outstanding performance that makes all the difference. Discover the next level of lure revolution with Illex Nitro Shad soft bait in UV colour.

- Superior effectiveness in fresh and salt water
- Innovative UV colours for murky waters and low light conditions
- Tested and recommended by anglers and competition professionals
- Ideal for perch and zander
