Perfection in detail: The Illex RV Bug soft lure

The **Illex RV Bug 1.5" 3.8cm** is not just a soft bait, but an innovation for sight fishing for black bass, chub and trout. With its unique design, which is modelled on a spider, this compact softbait offers an attraction that is second to none. The lure's finesse-shaped limbs generate micro-vibrations in all directions, attracting fish even in the most difficult conditions.

Unrivalled attraction thanks to innovative technology

Equipped with five pairs of legs that generate subtle but irresistible vibrations and two specially curled legs that create a lively attraction with light twitches, the Illex RV Bug is a masterpiece of lure design. Whether you present it weightlessly on a size 4 finesse down shot hook or use it in combination with finesse rigs such as Light Drop Shot, Light Texas or Light Carolina, this lure falls horizontally through the water and perfectly imitates the behaviour of a real spider.

Main characteristics:

- Target species: Black bass, chub, trout
- Area of application: sight fishing
- Special features: Imitation of a small spider, micro-vibrations through limbs
- Application: Weightless on Finesse Down Shot hook size 4, falls horizontally through the water
- Rigging: Ideal for Light Drop Shot, Light Texas, Light Carolina

For gourmets of finesse tactics

Anglers who like sight fishing and appreciate finesse tactics will be delighted with the effectiveness and versatility of the **Ilex RV Bug**. It is irresistible not only to perch, but also to a variety of other predators. Its sophisticated design makes it a must-have in every tackle box.
