Lifelike perfection with the Illex Clone Frog rubber frog

The **Illex Clone Frog 7cm rubber frog** is at the forefront of innovation when it comes to frog imitations. This flavoured and floating bait is the first choice when fishing for perch, black bass and pike. It has proved particularly irresistible in weedbeds, stumps, water lilies or in front of reeds. The moving legs create a realistic, pulsating body movement that immediately attracts the attention of predatory fish.

Main features of the Illex Clone Frog rubber frog

- **Target specie:** Perch, black bass, pike
- **Area of use:** weed beds, tree stumps, water lilies, reed beds
- **Special features:** flavoured, buoyant, movable legs for realistic body movements
- **Hakenempfehlung:** Wide Gape Texas Finesse 2/0

Maximise your catch with the Illex Clone Frog

The **Illex Clone Frog** is not just another soft bait in your box. It has been specially developed for anglers who want to get the most out of their fishing trips. Its small size and realistic movements make it the perfect tool for challenging situations. We recommend using a [Wide Gap Texas Finesse 2/0 hook](#) to fully utilise the effectiveness of this lure.
