Illex Softlure Scissor Comb 7.6cm: The game changer for passionate anglers

The **Illex Softlure Scissor Comb 7.6 cm** sets new standards in the angling sector. With its incredibly realistic lure movement and effective flavour, this lure attracts predatory fish like no other. Designed by renowned Japanese mould makers - Jackall, this lure offers unparalleled manoeuvrability and efficiency underwater.

Main features and areas of application

- **Length:** 7,6 cm
- **Weight:** 2,0 g
- **Model:** Sinking
- **Target fish:** Perch, pike, zander and a variety of other predatory fish

Incredibly realistic bait movement

Anglers report the extraordinary effect of the Scissor Comb, which causes a sensation under water with its lifelike movements. This realistic simulation makes it the perfect lure for demanding predatory fish. The Scissor Comb is characterised by its versatility. Whether fished on a drop shot, Texas rig or weightless on the surface, it proves irresistible to a wide range of target fish.

Enriched with an irresistible flavour

The specially developed aroma of the Scissor Comb is a decisive factor in attracting predators even at greater distances. This combination of visual attraction and olfactory seduction makes it one of the most effective lures on the market.

Versatile in use

Whether you favour the drop shot technique, Texas rig, Carolina rig or other fishing methods, the Scissor Comb proves its effectiveness in a variety of situations. Its adaptability to different fishing techniques makes it an indispensable piece of equipment for every angler.
